

SERVICES

WHAT OUR WEDDING DJS PROVIDE

Music and emcee services from the ceremony through the last dance, with a setup for each part of the day.

SETUPS BY LOCATION

CEREMONY

A multi-channel mixer and self-powered speaker, a lapel or handheld microphone for your officiant, and a custom playlist. Our acoustic acts can run through the same system for a seamless handoff.

COCKTAIL HOUR

A separate setup where you need one. If the cocktail area is near the reception but not in the same room, we string speakers out to it and combine the two setups to save you money.

RECEPTION

Full DJ setup with all sound, speaker count set by your guest count, and a wireless handheld microphone for toasts.

MULTIPLE LOCATIONS

If your ceremony, cocktail hour, and reception happen in different spaces within the venue, we provide a setup for each. Most venues within a short distance can be combined.

THROUGH THE DAY

CEREMONY MUSIC

Ambiance from the moment guests arrive through the recessional.

RECEPTION AND EMCEE

Cocktail hour, grand entrance, special dances, announcements, and toasts.

YOUR SONG LIST

Give us the songs and genres you want played, and the ones you don't.

READING THE CROWD

A generational approach to the set, so guests of every age hear something they know.

COORDINATION

We work with your planner or day-of coordinator so the timeline holds.

COMPLIMENTARY CONSULTATION

Meet your DJ before the day, and stay in contact with your agent throughout.
